

FOR IMMEDIATE RELEASE

Consolidated Products Joins AcuTemp's Global Distributor Network

Dayton, Ohio USA, September 27, 2007: AcuTemp Thermal Systems, a leading manufacturer of high performance insulation and temperature sensitive packaging technology, announces that Consolidated Products Corporation (CPC), New Delhi, India, has joined the company's network of global distribution partners. Consolidated Products will market AcuTemp's suite of passive and active temperature controlled containers to the pharmaceutical, biotechnology, public health and military medical markets in India.

"As a leading distributor of medical equipment and supplies, CPC is highly qualified as a partner for expanding AcuTemp's sales efforts into India," states Vince Reidy, vice president of sales and marketing. "With the continuing effort in India to develop the country's cold chain distribution infrastructure, AcuTemp's products provide an ideal solution for reliably storing and transporting temperature critical items such as blood, vaccines, specimens, and other pharmaceutical or biotechnology products."

"It is important for us to offer superior products that can provide our customers with peace of mind when shipping or storing their temperature sensitive goods," says Jai Saigal, executive director of CPC. "AcuTemp solutions deliver that peace of mind, which is particularly important at this time of growing scrutiny on ensuring the integrity of the cold chain."

AcuTemp Thermal Systems designs and manufactures reliable thermal management products used to maintain valuable temperature-sensitive payloads during transit or storage. By combining the company's proprietary high performance ThermoCor[®] insulation with advanced engineering design, AcuTemp offers a range of solutions integrating active and passive temperature control technologies for the cold chain. Offerings range from small passive shipping boxes to large active pallet-size shipping containers equipped with sophisticated data logging capabilities. The company also offers advanced thermal testing and package validation services in its ISTA-certified testing laboratory. AcuTemp products are marketed directly and through a global network of distributors to businesses with temperature sensitive requirements in the pharmaceutical, biotechnology, public health, military and transportation/logistics markets. The company is privately held and is headquartered in Dayton, Ohio, USA. To learn more, visit www.acutemp.com, The Right Temperature[®] and Peace of Mind[™]

Consolidated Products Corporation Pvt. Ltd. (CPC) is engaged in developing and marketing life saving medical products and devices. Over 10,000 hospitals, medical nursing homes and private practices have turned to CPC for specialist health care products such as blood component technology, cardiac and cancer diagnostics, critical care devices, and laboratory instrumentation. As a pioneer in the field, CPC has been bridging the gap between the latest medical technologies and the Indian healthcare industry since the company's founding in 1972.
